Its objective is to redefine perceptions of how business entities should engage with stakeholders, from Government and Media to Civil Society and Academia. PAFI is dedicated to raise and maintain standards of Practice in Public Affairs and to enable the industry to attain recognition and credibility.

Since its inception, PAFI has been actively promoting Public Affairs as a profession and providing a networking platform and opportunities to exchange views and share experience between corporates and various stakeholders, through panel discussions, seminars, close-door interactions and the Annual National Forum. PAFI also undertakes training programmes for public affairs professionals and is now looking at expanding its footprints into key states.
