

## **Shri Ashwini Vaishnaw**

Shri Ashwini Vaishnaw is an Indian politician, engineer, and bureaucrat currently serving as the Minister of Railways, Minister of Communications, and Minister of Electronics and Information Technology in the Government of India. Vaishnaw is known for his expertise in public policy, technology, and infrastructure, which he brings from a diverse career spanning both the private and public sectors. Before entering politics, Shri Vaishnaw had a distinguished career in the Indian Administrative Service (IAS), where he served in the Odisha cadre and played a crucial role in state-level infrastructure development and governance. He has also worked in the private sector with companies like General Electric and Siemens, further enhancing his experience in engineering and technology management. He holds an M.Tech from IIT Kanpur and an MBA from the Wharton School, University of Pennsylvania, which complement his technical acumen and policy-making skills. Since taking over the ministries, Shri Vaishnaw has led several transformational initiatives, particularly in the modernisation of India's railways, advancements in digital infrastructure, and driving innovation in the communications sector. His leadership has been instrumental in pushing forward reforms, including the expansion of high-speed internet connectivity, 5G deployment, and Make in India initiatives in electronics manufacturing.
