

Dr. Lovneesh Chanana
Sr. Vice President and Regional Head for Government Affairs, Asia Pacific
SAP
l.chanana@sap.com
+65-88784713

Dr. Lovneesh Chanana leads the public policy, government programs and thought leadership engagements for SAP in Asia Pacific. A known thought leader in policy and program level application of technology, Dr. Lovneesh has been contributing to development of technology policy landscape and leading many transformative government programs and projects. Working closely with industry bodies, where he leads and drives the digital economy agenda, Dr. Lovneesh has been contributing to knowledge sharing around technology developments and policies around cloud, SMEs, sustainability, artificial intelligence, workforce skilling, entrepreneurship and innovation. He has been instrumental in structuring and forging Government-industry partnerships to create a conducive digital ecosystem in many Asian countries. He has also been contributing to capacity building of Government officials and has designed and developed training programs on various areas related to technology programs in Government. He works passionately with academia and has been contributing to ensure industry readiness of youth and students through curriculum design and delivery.

Dr. Chanana holds a Ph.D. in Information Systems Management with a research focus on Mobile Governance.
