

Nithyashree Sathyanarayanan

Associate Vice President
The ePlane Company

Ms. Nithyashree Sathyanarayanan leads strategic initiatives at The ePlane Company, working closely with senior leadership on culture, operational excellence and investor relations. She plays a pivotal role in the company's fundraising efforts and drives several high impact initiatives.

She is actively contributing to India's innovation ecosystem through leadership roles in the Confederation of Indian Industry (CII), the Ministry of Youth Affairs and Sports (MYoS), and BRICS India Youth Summit via the Ministry of External Affairs. Prior to ePlane, Nithyashree was part of the Blume Ventures team in Mumbai, where she supported investor success. Beyond work, she's an advocate for youth empowerment and lifelong learning.

The ePlane Company is pioneering India's first and the world's most compact flying electric taxi, designed to make urban transportation up to 10x faster than road travel. Founded in 2019 by Prof. Satya Chakravarthy and incubated at IIT Madras, ePlane's flagship e200X is a two-seater electric air taxi capable of speeds exceeding 200 km/h, representing a breakthrough in urban mobility.
