Subject to Change
As on 19th Oct 2021

Public Affairs Forum of India (PAFI) is the only platform for corporate public affairs practitioners in the country, representing large and medium-sized Indian and transnational companies. PAFI's objective is to provide knowledge and context to aid evidence-based consultative, open and transparent policy process in the realm of Public Affairs that includes Policy Research & Advocacy, Communication; Stakeholder Engagement; and, Corporate Social Responsibility.

The theme of **PAFI's 8th National Forum 2021**, to be held virtually on **October 21-22, 2021** is **"Reviving the Economy: Reimagine. Reboot. Reform"**. The Forum would feature **over 50 panellists** from all over the world sharing their insights through **14 carefully curated sessions**, spread over two days. The Forum will focus on the long-term aspirational agenda for reviving the economy in India and across geographies. Speakers and participants will identify the emerging trends, sectors and suggest solutions including course correction to rebuild the economy.

With **Telangana** as the state partner, **PAFI's 8th National Forum 2021** will focus on the possible steps required, across the stakeholder universe, to ensure economic growth that helps in correcting the social imbalances amplified by the pandemic. The global and Indian economy have, in the last two years, faced unprecedented pressures, eroding the painstaking gains made over the years on several crucial indicators. The terms and nature of business have also changed forcing corporates to rework the existing models across the value chain. Therefore, all stakeholders need to collectively work towards relaunching the inclusive growth process.

PAFI's National Forum is not just a platform for interactive deliberations via **discussions, debates and dialogues** amongst various stakeholders, but more importantly setting the **direction** for broader policy and economic agenda emerging from active participation and interaction across a diverse set of stakeholders. These include, Union Ministers, State Ministers, Government officials from the central and state, as well as global & multilateral organizations, CEO's, media, think tanks and legislators.

Reviving the Economy

The global and Indian economy have, in the last two years, faced unprecedented pressures, eroding the painstaking gains made over the years on several crucial indicators. **PAFI's 8th National Forum** will focus on the long-term aspirational agenda for reviving the economy in India and across geographies. Speakers and participants will identify the emerging trends and suggest solutions including course correction to rebuild traumatized economies. The three focus areas of the National Forum will discuss various ideas and some of them are enumerated below.

Reimagine

The COVID-19 pandemic has had a major impact on the economy across the globe. The impact, as is evident, has not been uniform and has exposed the fault lines in the inclusive growth process. To realize the vision of becoming the largest economy by 2050, India needs to **"Reimagine"** the growth paradigm to ensure development of each section of the society.

Reboot

Reimagine will not deliver growth if we do not “**Reboot**” after post-pandemic introspection. To make the reboot successful there is a need for the Government to integrate industry into the policy making process and for industry to look beyond only sectoral or temporal gains to make the growth process more inclusive even as we should continue to leverage and contribute towards, strong global regional and domestic supply chains.

Reform

Counterintuitive though it may seem, it is the opportune time to ring in structural **Reforms** that foster **Trust**. These include reinforcing confidence in institutions, investments in health, education, and infrastructure. With the continuation of fiscal stimuli, India would have the requisite agility amidst complex geo-politics. The Government also needs to Celebrate **domestic investments** as much as it does track and highlight foreign investment.
